Discussion Topics

The session's objective is to discuss and exchange views on:

- EU GDPR (e.g. data portability and impact on data protection, codes of conduct and certification mechanisms as part of GDPR compliance)
- Binding corporate rules, and advice to organisations in developing BCRs, misconceptions about BCRs etc.
- One stop shop and its applicability to non-EU countries, what are some areas to look out for?
- Data protection impact assessment framework and requirements
- PDPC priorities and processing update in Singapore
